## Tong Wu

has successfully completed the online Specialization

# Six Sigma Green Belt

This specialization is for you if you are looking to learn more about Six Sigma or refresh your knowledge of the more advanced components of Six Sigma and Lean. Six Sigma skills are widely sought by employers both nationally and internationally. These skills have been proven to help improve business processes, performance, and quality assurance. In this specialization, you will learn proven principles and tools specific to six sigma and lean.

Dr. David Cook  
Assistant Professor of  
Mechanical Engineering  
Technology  
Department of  
Mechanical Engineering  
Technology  
Kennesaw State  
University

Bill Bailey, PhD  
Assistant Professor  
Southern Polytechnic  
College of Engineering  
and Engineering  
Technology  
Kennesaw State  
University

Christina R. Scherrer,  
PhD  
Professor  
Southern Polytechnic

3 Courses

**Supervised Machine Learning: Regression and Classification**

**Advanced Learning Algorithms**

**Unsupervised Learning, Recommenders, Reinforcement Learning**

Apr 29, 2025

**Tong Wu**

has successfully completed the online, non-credit Specialization

# Machine Learning

Congratulations on completing all three courses of the Machine Learning Specialization! You studied modern machine learning concepts, including supervised learning (linear regression, logistic regression, neural networks, decision trees), unsupervised learning (clustering, anomaly detection), recommender systems, and reinforcement learning. You learned some of the best practices for building machine learning models. You've also gained practical skills to apply machine learning techniques to challenging real-world problems. Now #BreakIntoAI and start building your career in machine learning!

Andrew Ng, Instructor,  
DeepLearning.AI

8 Courses

**Foundations: Data, Data, Everywhere**

**Ask Questions to Make Data-Driven Decisions**

**Prepare Data for Exploration**

**Process Data from Dirty to Clean**

**Analyze Data to Answer Questions**

**Share Data Through the Art of Visualization**

**Data Analysis with R Programming**

**Google Data Analytics Capstone: Complete a Case Study**

Apr 26, 2023

**Tong Wu**

has successfully completed the online, non-credit Professional Certificate

## Google Data Analytics

Those who earn the Google Data Analytics Professional Certificate have completed eight courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for introductory-level roles in Data Analytics. They are competent in tools and platforms including spreadsheets, SQL, Tableau, and R. They know how to prepare, process, analyze, and share data for thoughtful action.

has successfully completed the online, non-credit Professional Certificate

# Google IT Automation with Python

This six-course certificate, developed by Google, is designed to provide IT professionals with in-demand skills -- including Python, Git, and IT automation -- that can help them advance their careers. The hands-on curriculum is designed to teach learners how to write code in Python, with a special focus on how this applies to automating tasks in the world of IT support and systems administration. Those who received this certificate passed all graded assessments with a score of 80% of above. They should have a strong foundation in how to use Git and GitHub, troubleshoot and debug complex problems, and apply automation at scale by using configuration management and the Cloud in order to prepare them for more advanced IT Support Specialist or Junior Systems Administrator positions.

# **Certified Business Analysis Professional™ (CBAP®)**

This certificate acknowledges that the learner has completed the 'Certified Business Analysis Professional (CBAP) Specialization, demonstrating expertise in requirements management, solution evaluation, stakeholder engagement, and business analysis planning. It qualifies for 35 professional/continuous development units with IIBA®. This specialization prepares the learner for the Certified Business Analysis Professional™ (CBAP®) Exam and does not grant the right to use the title of a Certified Business Analysis Professional or CBAP.
